Unit 4 — Measurements

© 2026 English for Information Technology. All rights reserved.

Acronym

an abbreviation; a way of writing a longer string of words more concisely

"IT is an acronym for Information Technology."

Bandwidth

a measurement of the capacity of data which can be moved between two points in a given period of time

"The website performed very poorly because it was graphically heavy and required more bandwidth than was available."

Benchmark

a measurement or standard that serves as a point of reference by which process performance is measured

"The magazine article used PCMark 7 scores as a benchmark for computer performance."
