Unit 18 — IT Slang: Part I

© 2026 English for Information Technology. All rights reserved.

Code monkey

someone who sits and programs all day; someone who is only valued for their programming skills

"The bad software architect said, "Tell the developers to stop thinking and start typing like good little code monkeys!""

Early adopter

a person who likes new things and often buys them before they are proven

"A geek is a typical early adopter, often trying the latest and greatest technology before their peers have even heard of it."

EOL (End of life)

the point when something is no longer supported or viable

"Operating systems typically reach their EOL about 3 years after release, but some people continue using them for decades."
