Acceptance test

determines if the requirements of a specification or contract are met

"An acceptance test returns either as pass or fail, with a fail suggesting that there is a flaw present and the software should not go into production."

Automated testing

the use of other tools and scripts to test the software you’re creating

"Automated testing is often done with automation tools to execute test case suites."

Black box testing

a method in which the internal structure is not known to the tester

"Black box testing can be applied virtually to every level of software testing: unit, integration, system and acceptance."
